Your memorable adventure in Iceland begins the very moment you arrive at Keflavík Airport. Once you have picked up your rental vehicle, you will head directly for Reykjavík and your, first night in Iceland.

If your flight arrives early enough, we have a great suggestion for starting your trip off the right way: Plan a visit to Iceland's world-famous Blue Lagoon. Be sure to pack your swimsuit, so you can take a relaxing dip in the Lagoon's soothing geothermal waters before heading to your hotel.

DAY 2: Reykjavík – Golden Circle – Vík or Kirkjubæjarklaustur

You start the day by a drive to Þingvellir National Park, a UNESCO world heritage site and one of the geological wonders of the world where you can see the effects of the tectonic plate movements which have opened various cracks and fissures in the earth's crust. You continue to the famous Geysir Area where the Strokkur hot spring ejects its water column high into the air every 5 – 10 minutes and where numerous small springs boil and bubble.

Afterwards you only have a short drive to reach Gullfoss, surely one of the country's most beautiful waterfalls. Drive along the south coast to Vík/Klaustur area for your overnight stay.

DAY3: Skaftafell – Jökulsárlón – Vík or Kirkjubæjarklaustur

Your next stop is Iceland's scenic southeast. After passing various, outlet glaciers belonging to Vatnajökull, Europe's largest ice cap, you will arrive at the stunningly surreal beauty of Jökulsárlón, a glacial lagoon. This exceptional sight sits at the foot of Iceland's highest mountain, Hvannadalshnúkur.

Skaftafell National Park is another area definitely worth a visit. This oasis, surrounded by glaciers and black sand plains, offers a broad range of options for great hiking. Continue through Kirkjubæjarklaustur village, the Eldhraun lava field and the Mýrdalssandur plain driving back to Vík/Klaustur area.

DAY 4 : Vík/Klaustur – Reykjavík

Today you can start by looking at the black sand beach of Reynisfjara, famous for the Reynisdrangar rock stacks that rise from the sea and for its basalt columns. Dyrhólaey cape is the southernmost point of Iceland. A small road takes you to the top of this 120 m high sea cliff where you often can see a large number of puffins (please note that Dyrhólaey is closed during nesting season from May 15 until June 23 and from mid- August the puffins will have gone to sea!).

Continuing westbound you arrive at Skógar and pass Skógafoss waterfall, one of the highest in Iceland. As you continue towards Hella you pass Seljalandsfoss waterfall, which you can actually walk behind. Your day will end in Reykjavík where you will spend your last night in Iceland.
